

## Annual Health Checkup 2021

### Precautions for prevention of Coronavirus Infection

From the perspective of preventing infection with the new coronavirus, please cooperate with the following points.

- To prevent infection at the health examination venue, please be sure to wear a mask and maintain an appropriate distance of more than 1 meter between you and other persons while waiting in a line. Eating and drinking are prohibited at the venue.

- Student who falls under the following conditions ① to ⑤ below will be restricted from entering the annual health examination venue. Be sure to measure your temperature on the morning of your health examination and check your health status.

① If you have a fever ( $\geq 37.5^{\circ}$ ) with symptoms of cold, including feeling not well,

→ Return to take the health examination at later dates after your symptoms have improved or/and you are assured that there are no problems.

② If you have traveled to the areas affected by coronavirus outside Ishikawa prefecture within two weeks;

\*Endemic Areas : For the time being, we will post the transition of infected persons by prefecture on the website (Kanazawa University's Guideline to Prevent the Spread of Coronavirus Disease 2019 (COVID-19)) of the university and update it around noon on the first weekday of every week.

→ Take the health examination after you confirmed that it had been more than two weeks since you returned from infected areas outside the prefecture, and there is no major problem with your physical condition.

③ If your department/program prohibits you from attending school;

→ Take the health examination after the restrictions are lifted.

④ If you have made close contact with a new coronavirus infected person within **two weeks** ;

→ Wait until at least **two weeks** has passed before taking the health examination.

⑤ If you have traveled abroad within **two weeks** ;

→ Return to take the health examination after more than **two weeks** has passed.

- At the examination venue, we measure your temperature. Please fill in the "Questionnaire Regarding the New Coronavirus" distributed to you on the spot, and turn it into the chest X-ray reception desk.
